Supervisors Postpone Closing of Houses At Coyote Pt. Project

Over a strong undercurrent of baby squeals and gurgles, the San Mateo County Board of Supervisors Tuesday voted to put off for two weeks any decision on the closing of the Coyote Point housing project in San Mateo.

Approximately 50 men, women and children, all of whom live in the development, attended the meeting, held in the county courthouse at Redwood City.

They learned from the supervisors that there is no "if" question about the closing of the project, as substandard in construction and a menace to health.

The only question to be settled is "when."

The Rev. W. C. Sample of the Pilgrim Baptist Church, San Mateo, speaking for the 30 Negro families who live in the project, suggested that the board set Sept. 30, at the earliest, as the date for eviction of the tenants.

It had been recommended to the supervisors by Gaston Periat, chairman of the County Housing Authority, which operates the project, that the close-down date b July 31.

That, said the reverend, would be "an injustice." The 112 families at the project couldn't possibly find other housing in that short a time, he said.

The board decided to wait two weeks, think the matter over and get a report from a special committee of the San Mateo AMVETS post before setting an eviction day.

The AMVETS' committee, according to Cmdr. A. C. Olson, was formed last week to look for places for the Coyote Point families to live in after they are evicted.

N. Redwood Residents Incorporate

Residents of Redwood City's Edgewood district have taken steps to assist the city in dealing with problems in their area.

Residents of the area recently filed articles of incorporation for an organization called North Redwood Neighbors, Inc. Howard Magee, 1003 Blandford Blvd., temporary president of the North Redwood Neighbors, said he hoped to have all residents and property owners in the Edgewood district as members.

"It's our hope," said Magee, to set up an organization for the betterment of our community and to unite the residents to promote the interest and welfare of all our members."

Magee said the organization's meeting dates and bylaws will be arranged at a later date when the membership has grown enough to represent the area. Permanent officers will also be elected at that time.

RC Infant Dies En Route Hospital

A 3-month-old baby, ill since birth, died enroute to Palo Alto Hospital Sunday after his parents found him turning blue in his baby buggy.

The boy, Gordon Mills, was pronounced dead upon arrival at the hospital.

He is the son of Mr. and Mrs. Richard Mills, 1802 Woodside Rd., and the grandson of Mr. and Mrs. Louis Cohn, 1121 Adams St.

The baby had been ill because of a congenital stomach defect, and two weeks ago underwent an operation. He was in the buggy, outside the house, yesterday when his parents noticed he was vomiting and turning blue. He was taken to the hospital by his parents.

The Mills have one other child, a 16-month-old girl, Judiann.

Survivors also include the maternal grandparents, Mr. and Mrs. Alfred Ostrow.

Resident of RC 60 Years Dies

Frank E. Peterson, 95, 104 Cedar St., died Sunday at a San Mateo hospital after a long illness. He had resided in Redwood City for 60 years.

Private funeral services were held here today at the Layng & Tinney Funeral Home with the Rev. Gale Engle of the Congregational Church officiating.

Interment followed at Cypress Lawn Cemetery, Colma.

Mr. Peterson lived here with his daughter, Jennie B. Peterson. He was the husband of the late Mrs. Luisa A. Peterson and father of the late Carl Axel Peterson.

He was a native of Sweden. Mr. Peterson was a retired carpenter and former employe of the S. H. Frank Tannery. He belonged to the Carpenters' Union and Foresters of America, Court Madrone 158.

RC Police Department To Get Teletype Service

Installation of teletype service in the police department was approved Monday by the Redwood City council.

The teletype, to cost each $50 monthly, is to connect the cities in San Mateo County.

Seek Exam For Frazier In Death Case

Defense Atty. George Davis Monday said that next week he will attempt to have his client, Kermit O. Frazier, 34-year-old credit man charged with murder, removed from the county jail for a complete psychiatric examination in a private sanatorium.

Davis made his statement to reporters after he obtained a two-week continuance of the case from Superior Judge Aylett R. Cotton Monday afternoon.

The continuance was granted because Davis said he wanted to determine whether Frazier should enter a plea of not guilty by reason of insanity to the charges arising from the slaying of Mrs. Mary L. Thompson of Atherton, and the wounding of her twin daughters, Doris and Sharle.

The attorney said he was ready to have Frazier enter a straight not guilty plea Monday provided that the second plea could be entered at a later time. However, the entering of any plea was continued for two weeks.

Next Monday Davis will make a motion to have Frazier removed from the county jail, an unprecedented procedure in San Mateo County murder cases.

In the county jail, Davis declared, it is not possible to make a complete psychiatric examination.

"It may be possible," he corrected himself, "but only under the most impossible or adverse conditions."

He said the defense would be willing to pay for whatever expense might be involved in having Frazier out of jail, including the cost of 24-hour guards.

The psychiatric examination, Davis declared, would include the "works"—truth serum, lie detector or whatever modern science had to apply to such cases.

John O'Brien, 84, Dies in Menlo Park

John Baldwin O'Brien, 84, father of San Mateo Police Chief Robert E. O'Brien and County Dep. Sheriff John G. O'Brien, died suddenly Sunday night as the result of a heart attack.

Mr. O'Brien, pioneer resident of San Mateo, succumbed at the Menlo Park home of his son, John, 79 Bay Rd.

A native of County Waterford, Ireland, Mr. O'Brien had lived in San Mateo for the past 70 years. He was one of the county's first residents and worked for years on the famed "Baron Estate."

Mr. O'Brien served as superintendent of streets for the City of Hillsborough until 1941, when he retired.

He was the husband of the late Margery O'Brien, who died Aug. 1 of last year, and the father of the late Daniel Baldwin O'Brien of San Mateo and the late Mrs. Ellen Hathaway of Los Angeles.

Many Persons Hurt On Jammed Highways

Sunny weather during the weekend sent motorists in San Mateo County highway's and a flood of traffic resulted in a dozen accidents in which nine persons were injured. Several others were hurt in various cities throughout the county.

Most of the accidents occurred Sunday evening as motorists headed back to San Francisco jammed Bayshore Hwy. and Skyline Blvd. Three pileups, involving 10 cars occurred on Bayshore Hwy. east of Belmont during the evening.

William Landman, 49, of Oakland, and his wife Adelaide, 43, were admitted to Community Hospital after the sedan Landman was driving was involved in a four-car rear end collision at 8:50 p.m. a half mile south of Harbor Blvd. The crash occurred when traffic stopped for another accident at Ralston Ave.

The Landmans' three children, Aileen, 15, Martin, 13, and William, 11, suffered minor cuts and bruises. They were treated at Community Hospital and released.

The California Highway Patrol reported that the other drivers were Andrew McShay, 53, San Francisco; Jesse E. Sawyer, 55, Oakland; and Truman Gordon, 24, a University of California student who lives at 231 Washington Ave., Palo Alto.

Betty G. Frahm, 20, Skyline Blvd., Sky-L'onda, suffered a shoulder injury early Sunday when the car she was driving was struck by a convertible coupe driven by Elmer D. Matney, 44, of 2274 Poplar Ave., East Palo Alto.

The CHP stated that the accident occurred on Skyline Blvd. a half mile south of the Half Moon Bay Rd. The officers said that Matley, while north bound around a curve, crossed to the wrong side of the centerline and ran into the side of Miss Frahm's car. He continued driving, and Miss Frahm's mother flagged down a passing motorist who gave chase and forced Matley to stop.

Matley was arrested on charges of felony drunk driving and driving with a revoked operator's license.

Jennings B. Ledwell, 35, a navy commissary steward, suffered a serious head injury and facial cuts, when he fell from a motor scooter on Bayshore Hwy. a quarter of a mile south of South San Francisco. Ledwell was treated at South San Francisco Hospital and transferred to a navy hospital.

Florence S. Myrick, 60, of Centerville, was injured when the car she was driving collided with another car driven by Clarence A. Phillips, 52, of San Jose. The accident occurred Sunday night on Bayshore Hwy. near East Hillsdale Ave., San Mateo.

Floyd C. Neil, 55, of 511 Menlo Oaks Dr., Menlo Park, was hurt late Saturday when the motor-scooter he was driving crashed into a parked car owned by Donald Tuxford, 312 Semicircular Dr. Neil told officers that a dog ran in front of his scooter, causing him to lose control and swerve into the car.

Another accident occurred at the Skyline and Half Moon Bay intersection Sunday night and involved a car driven by Father Patrick Kerrigan, Our Lady of the Pillar Church, Half Moon Bay. The other driver was John H. Dare, 59, of Burlingame. No one was injured.

★ ★ ★

Six Injured Here In 2-Car Collision

Six persons were injured in a two-car collision Sunday at 4:58 p.m. on Bayshore Hwy. at Brewster Ave.

Redwood City police reports showed that Byron J. Favorite, 25, Campbell, was the driver of one car and Gertrude Rosenburg, 46, San Francisco, drove the other one.

Favorite, police said, was traveling south on Bayshore when his car struck the Rosenburg car which had stopped before entering the highway from Brewster Ave. and then had started up into the path of the southbound car.

Injured were:

Bessie Favorite, 58, San Jose, bruised right side.

Carroll Favorite, 24, Campbell, cuts on left arm and foot.

Gertrude Rosenburg, taken to Palo Alto Hospital for treatment of chest injuries.

Barney Rosenburg, 54, San Francisco, hand injury.

M. Rosenburg, 49, San Francisco, injured right leg.

Samuel J. Rosenburg, 52, San Francisco, injured right side and leg.

All but the injured driver were treated at Redwood City Clinic.

Self-Serve Law To Be Drawn Here

Self-serve gasoline stations will not be banned in Redwood City but they will be regulated, the city council decided Monday night.

The decision came after recommendation to that effect headed by Councilman Arthur Swift.

Actual drafting of an ordinance regulating all gasoline stations, however, will await a conference next month in San Francisco of fire officials.

Chief Joe Lodi will attend that conclave and bring back a model ordinance for the city.

Harrison Call, attorney representing self-serve stations, took the blame for delaying a report by the committee. He said the committee held up its session to await his return from attending his mother's funeral in the East.

Seaman Arrested In Assault Case

Redwood City police Sunday arrested Erven Kuhl Jr., 19, 31 Oak Ave., a seaman, on a charge of assault and battery.

They said the arrest was made after a 16-year-old girl reported that the seaman had knocked her down and attempted to rape her.

The incident took place at 3:16 p.m. in the back yard of 403 Center St.

Police said the girl had stopped to talk with Gary Neal, 403 Center St., and that while that talk was in progress Kuhl, who knows Neal, stepped up to talk to the girl, and then knocked her down and dragged her into the rear yard.

Neal pulled Kuhl away from the girl after which she telephoned police.

Charles Hussey County Aide, Dies

Charles M. Hussey, a retired probation officer who resided in Menlo Park, died in a San Mateo hospital Sunday after an illness of three months. He was 74.

Mr. Hussey, a native of Crookston, Minn., was living with his son, Richard E. Hussey, at 127 Hedge Rd., Menlo Park at the time of his death. He was the husband of the late Winnie Hussey.

In addition to his son, he is survived by three grandchildren, Lynne E. and Constance L. Hussey of Menlo Park, and Thomas Fischer of Whitefish., Mont.

Funeral services for Mr. Hussey will be in Los Angeles.

Kensington Improvement Plans Drawn

City Atty. Cuthbert Currie was making plans today to carry out a Kensington Square improvement project in two stages.

He said he would first draw papers calling for an $80,000 assessment district for the installation of storm and sanitary sewers. When that is completed he will go ahead, he said, with the remainder of the $250,000 job which calls for the installation also of streets, curbs and gutters.

After the first bonds are sold for the sewers, he explained, bids will be taken for the remainder of the project. Property owners can decide when the street bids come in whether they want to continue with the project.

This action resulted from protests to City Engineer Glenn Jain's proposal that street improvement installation be postponed indefinitely.

Jain pointed out that San Francisco bonding firms stated that the district was not sufficiently built up to warrant issuing $250,000 worth of bonds against it.

He pointed out that the entire job would cost each property owner approximately $1200 while the sewers alone would cost approximately $400 each.

C. W. Linder, 3405 Dover Rd., led a group of protestants to Jain's plan. Linder said residents favored the sewers first but insisted that the street jobs be carried out simultaneously.

Linder charged that the city did not do as much towards keeping the present red rock streets in repair as San Mateo County did before the district was annexed.

Willie Silva, another property owner, said that the Federal Housing Administration would not approve home loans in the area until streets were installed. He claimed that Jain's proposed improvements were too fancy and that a contractor had told him the entire job could be handled for $9 a front foot.

Jain said the figure for the whole job would run closer to $16 a front foot.

Residents also objected to police and fire protection in the district.

Council OKs Changes In CS Regulations

Two civil service regulations changes were approved Monday night by the Redwood City council on recommendations from the personnel board.

One calls for all fire, police and recreation department employes to take first aid courses and the other makes it mandatory for all city employes to sign a declaration of where they live. City employes must live within the city.

Books at Public Library

THE LIFE OF JESUS

In the rush to find Easter clothes and the delight in the spring season, it is easy to forget the true significance of Easter. There is no better time of year to read the many interpretations of the life of Jesus and to follow the story as Easter approaches. In the Redwood City Public Library you will find an unusually good collection of stories of Jesus. Throughout the ages many writers have been inspired to rewrite the New Testament accounts.

One of the most famous and discussed is **THE LIFE OF JESUS** by Ernest Renan. One critic says this book will, doubtless, continue to stand, as an exquisitely conceived and executed romance rather loosely or remotely based upon history.

THE LIFE OF OUR LORD by Charles Dickens was written for his own children. Dickens forbade the publication of this book during his and his children's lifetimes, perhaps because he feared an attack on his personal religion. It is about 16 short chapters, chiefly adapted from the Gospel of St. Luke in language simple enough for children to understand.

Bruce Barton took the keynote of his book **THE MAN NOBODY KNOWS** from the quotation, "Wist ye not that I must be about my Father's business?" He speaks of Jesus as the founder of modern business. His chapters are on The Executive, The Outdoor Man, The Sociable Man, His Method and His Advertisements.

Especially appropriate Eastertime reading is the book **MEDITATIONS ON THE CROSS** by Toyohiko Kagawa, the great Japanese religious leader.

A recent interpretation is John Erskine's **THE HUMAN LIFE OF JESUS.** The author attempts to show how Jesus revealed to men the secrets of how to live.

A book that has aroused a great deal of discussion in modern Italy and has been translated for us by Dorothy Canfield Fisher is Giovanni Papini's **LIFE OF CHRIST.**

Albert Payson Terhune has written a life of Jesus called **THE SON OF GOD.**

A retired Unitarian minister has given us another little book called **THE FIVE INTERPRETATIONS OF JESUS** which is well worth reading at this season.

THE GREAT GALILEAN by Robert Keable is another discussion of Jesus with a view of Christian ethics widely different from the accepted interpretation of the Church.

Translated from the Russian is **JESUS THE UNKNOWN** by Dmitri Merejkowski, author of **THE ROMANCE OF LEONARDO DA VINCI.** This writer claims that the New Testament is the least read of books, the least known, and of Jesus he quotes, "And the world knew him not."

Belmont School Board Votes Auditorium Safety Checks

The Belmont Elementary School Board of Trustees this week voted to ask the Belmont Fire Dept. either to close the Waltermire School auditorium for public use or grant an extension on complaince with a fire department recommendation that an additional exit be installed.

Supt. Mrs. Mark Nesbitt recently asked Fire Chief Elbert Miller to inspect the auditorium and Miller recommended the additional exisit be put along the north wall of the auditorium.

Harry Chamberlain, clerk of the board, last night declared that the school district would have to hire an architect and call for bids on the project which would take two or three months. He said the fire department report required that the improvements be made within 30 days.

Chamberlain said that the exit could not be installed during the school semester since the auditorium is used as a classroom.

"We are not going to assume responsibility for use of the auditorium," he declared. "We are going to ask the fire department for a closing order."

Several times during the discussion, Chamberlain, former assistant fire chief of Belmont, threatened to resign from the board if it did not ask to have the auditorium closed. "I am not going to be responsible for the public use of the auditorium," he repeated.

Miller today explained that a 30-day requirement for compliance with the recommendations was in accordance with customary fire department procedure.

$1200 Fire Damage In Coastside Home

The interior of a five-room house in Montara was gutted by fire Monday night and a deputy fire warden said that the blaze definitely was set.

The house, owned by Arthur H. Hodge, San Francisco, was unfurnished and unoccupied. Dep. Fire Warden Earl Peterson estimated the damage at $1200.

Peterson said that the fire apparently started in two or three different rooms at the same time. Oil had been spread around the rooms and there were several charred places where the firebug had tried to start a blaze but had failed.

The walls, floors and ceilings of four rooms were charred by the fire. There was evidence to indicate that an attempt also had been made to start a fire in the attic.

The frame building is located west of the Montara school. One truck from the fire warden's station at Rockaway Beach was sent to the blaze which was brought under control by the crew and by a half dozen volunteers. Two trucks were dispatched from Redwood City but the fire was out by the time they arrived.

Famed Actor, Writer Held Here

Elliott John Nugent of Los Angeles, world-famous playwright and producer, dared a California Highway Patrolman to arrest him Tuesday morning at the San Francisco Airport.

The patrolman, John Cherry, took the dare.

Nugent this afternoon is in the county jail.

The 52-year-old playwright saw Cherry in the Skyway Cafe at the airport late Tuesday morning. Cherry was having a cup of coffee. Nugent, according to the patrol, was having—or had had—something a little stronger.

After a threatened battle, Cherry arrested the playwright on charges of being drunk and resisting arrest and drove him to the county jail here.

As he was being booked by the jailer, Nugent maintained a stoic calm.

Finally he asked, "Now would you mind telling me where I am?"

"Sure," was the answer. "You're in the county jail."

Nugent nodded his head slowly. "Very interesting," he said. "Very interesting. Thank you. I just wanted to know where I was."

Nugent was coauthor of "The Male Animal," along with James Thurber, and starred in the production. As an actor he costarred with Margaret Sullivan in "Voice of the Turtle" in 1943-45.

He was director of a number of well known motion pictures including "The Cat and the Canary," "The Male Animal," "Welcome Stranger" and "My Favorite Brunette."

Post Office Gets Stamp Machine

An automatic stamp vending machine to dispense postage stamps at face value was placed in operation by the U. S. Post Office Dept. in the lobby of the Redwood City Post Office yesterday, thus inaugurating a new convenience to patrons, Postmaster Robert O'Connell reports.

Automatically operated by the insertion of a coin, the machine issues five 1 cent stamps for a nickel, five 2 cent stamps for a dime and five 3 cent stamps for a nickel and a dime. The machine may be operated at any time during the day or night for patrons who desire small quantity of stamps when the stamp windows are closed or when there are a number of people in line at the service windows, O'Connell said.

The machine is equipped with a sensitive detector mechanism which rejects spurious coins and coins are returned if the supply of stamps is exhausted.

Plan Lighting System At New Hawes Diamond

Transfer of $2800 from a Hawes Park sprinkler fund so that the money can be used to install a lighting system and fences at a new Hawes Park softball diamond was approved this week by Redwood City councilmen.

The Park and Recreation Commission recommended that the $2800 set aside for sprinklers at the old Hawes softball diamond be used instead for the new features at the new diamond.

Alfred Morton, city recreation director, estimated it would take $1500 to complete the lighting system and $1000 for fences. The new diamond will be turfed, sprinkled, fenced and lighted but will not have permanent bleachers.

Suspect Sad, But Well Fed

Charles Lee Bills of Salinas was in San Mateo County Jail today, less happy but less hungry than he was yesterday afternoon.

Bills was arrested by Menlo Park Police on a charge of petty theft after he was caught in a Santa Cruz Ave. grocery store.

Police said they found three cans of sandwich meat and a pound of butter in his pant legs, which were tied at the cuffs. Bills told them he was hungry.

He was lodged and fed at the jail, and failed to post $100 bail. Bills will come up for hearing tonight in Judge E. J. Ryan's Menlo Park Police court.

Hoover Group Sets Rec Plans

The first meeting of the Hoover School Dist. recreation building committee was held at L. A. Henderson's residence this week and plans were outlined for the acquiring of necessary materials for the building.

The redrock will be delivered to the site by Saturday. When it is properly spread, the wire mesh and reinforcing steel rods can be put in place; then the slab can be poured, Chmn. Joseph Bughi reported.

The following men were present: Bughi, Wesley Rose, C. M. York, Lynn Walters, L. E. Lintt, Ben Nesvold, and H. C. Dawson.

City Engineer to Study Stambaugh St. Project

City Engineer Glenn Jain is to see bond house representatives to determine whether an issue to pay for a Stambaugh St. area improvement project will sell.

Redwood City councilmen this week decided that if the issue for drains, sewers and streets for the entire area will sell, the project should be pushed.

If bond houses do not favor the entire job, councilmen decided, the city should go ahead with a one-block Laurel St. job where residents are ready to proceed at once.

Science Changes Told Kiwanians

Dr. W. A. Dew, western division manager of the DuPont Co. extension division, spoke this week to the San Carlos Kiwanis Club on chemical developments now underway in research laboratories.

He pointed out that "science has changed our lives and has figuratively made every man a king." Dr. Dew showed the group nearly 100 chemical products now being developed.

Award Contract to Build Park Utility Structure

A contract for construction of a $4500 park department utility building at Community Park was awarded this week by the Redwood City council to Cattich Bros. & Stevenson.

Council also approved spending an additional $1500 for red rocking the area around the new building.

Measuring Method

Jupiter's moons, disappearing behind the planet and reappearing on the other side, as they traveled along their orbits, gave man his first successful method of measuring the speed of light.

GARDEN: Healthy 'Mums Should Be Guarded Carefully

BY ROLLY LANGLEY

You'll remember that George Lombardo wrote in about trouble with his chrysanthemums, and that later it was suggested that if anyone had any tips about why his mums didn't come true, to write in. Among those who did was D. G. Milbrath, chief of the Bureau of Plant Pathology, California Department of Agriculture, Sacramento. Here's the letter:

"In view of the description given by your client, it appears that the trouble which he described corresponds with a new disease in chrysanthemums. This disease couses a stunting of the plants and a dwarfing of the flowers.

"Flowers are often one-third of normal size. The disease is persistent in the plants and when division is made of the crown the separated parts will still retain the disease.

"The cause has not been established. It is definite, however, that a natural spread occurs in gardens. It is highly probable that spread was facilitated by a free exchange of plants, and that exchange has resulted in an almost nationwide distribution of the trouble. In California we have found chrysanthemum stunt in many parts of the state from Sacramento and San Francisco southward.

"The control, so far as present knowledge is concerned, of the disease consists of finding healthy plants from which to propagate. It, however, must be retained in mind that such healthy plants must be kept separate from diseased plants.

"I thought you might be interested in this available information. Investigations are being carried out in various parts of the country including Beltsville, Md., Ohio and California. . . ."

A word to the wise, they say. . . . So you'd better be careful how you trade around with mums this Spring.

I got a kick out of you folks being referred to as "clients"—didn't you? Come to think of it, maybe you are. Only I know you're not clients of mine. Just friends, boosters, and constant readers. (Tell your friends, won't you!)

WHAT TO PLANT NOW

Seeds and started plants of petunia, aster, calendula, zinnia. Vegetable transplants: Celery, broccoli, cabbage. Vegetable seeds: Lettuce, carrots, beets, onions, radishes, peas, chard, squash and bush beans. (Last two gambles). Fruits: Citrus, guavas, anything in containers, including roses.

Ah, it won't be long now till we'll all be going to the big show—the California Spring Garden Show, in the Oakland Exposition Bldg. auditorium, and surrounding glamorized acres.

S. A. Spinella wants to know if black Mexican corn is good to eat. I think it is—provided you grind it into meal first. If you want the best in fresh sweet corn—plant Golden Cross Bantam now. It takes several weeks to germinate at this time of year.

Funny thing. I never recommend Golden Cross Bantam corn but what several irate greenthumbers write in and say I'm all wet. About the Golden Cross Bantam corn, I mean. They have pet varieties which they think have better flavor, or bigger ears, or more, or some mark of distinction. Still, I'm not convinced.

However, whenever you have the space, it's interesting to try other varieties. Among the early varieties, the Marcross has been found good, but the consensus is the quality isn't up to GCB. Then you might try Country Gentleman, and Alameda Sweet, and Oregon Sweet. The ornamental ears are good for fall decoration, too.

William Reinhard, 3735 39th Ave., Oakland, would like to know how many would be interested in starting a Fuchsia Society that would meet on a Saturday night or a Sunday morning. If you're so inclined, please bypass me and write him direct.

Gosh, what a Spring. How late everything is, including fuchsias.

PUBLIC NOTICE

Michael Aaronson, Atty.
SUMMONS—No. 48108, Dept. No. 1
IN THE SUPERIOR COURT OF the State of California, in and for the County of San Mateo.

Margaret J. Monahan, Plaintiff, vs. Thomas Andrew Monahan, Defendant.

Action brought in the Superior Court of the State of California, in and for the County of San Mateo; and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

The People of the State of California Send Greetings to:

THOMAS ANDREW MONAHAN, Defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said County, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 8th day of March, A. D. 1949.

(SEAL) W. H. Augustus, Clerk; by Robert Duffy, Deputy Clerk.

Michael Aaronson, 1494 El Camino Real, San Carlos, California, Attorney for Plaintiff.

Mar. 10, 17, 24, 31; Apr. 7, 14, 21, 28; May 5, 12, 1949.

Belmont Water District Board Meets Tonight to Condemn Site for Pump Station and to Call Bond Bids

The Belmont Water Dist. Board of Directors will meet tonight to condemn a site for a pump station on North Rd. and to call for bids on improvement bonds for an 88-lot area near the old Pullman property north of Alameda de las Pulgas.

C. N. Kirbride, attorney for the district, said that he had called the meeting in order to start both proceedings.

The site for the pump station is to be located on the north side of the second block of North Rd., just a few feet south of the San Mateo City limits.

On March 26, the water board voted to underwrite a $15,000 bond issue to install water mains to the Pullman area. The board previously had called for bids on the bonds, but had received none. Thirteen homes are already built in the area.

One director, Melvin Stuparich, voted against the proposal declaring that it might establish a bad precedent for other future subdivisions.

YOU SHOULD KNOW

Why Retail Prices Go Up And Down

OUR retail prices change from week to week to reflect the changes in Wholesale Markets. Because Lucky keeps its inventories low, avoiding speculation, changes in commodity markets quickly show up in retail prices. This Policy assures you of fresh, dependable merchandise and the benefits of up-to-date retail pricing.

WHEN the Wholesale Market declines our retail price goes down immediately. When the Wholesale Market goes up, it is Lucky's established policy to advance prices only on replacement of depleted warehouse inventories.

BUT you may be sure one price factor doesn't change, and that is the narrow spread between retail and wholesale prices, which goes to pay for our services. This is another advantage of trading with Lucky and it is made possible by your loyal, steady buying in your local Lucky Store.

THE many reductions of the last few months in the wholesale prices of many foods have increased the buying power of your food dollar, because you have found those price drops immediately reflected in Lucky's retail prices.

CALIFORNIA BRIEFS: Bank Aide Indicted in Oakland

SAN FRANCISCO (AP)—The federal grand jury yesterday indicted Herbert Rufus White Jr., 35, Oakland bank employe, and two other men on charges of taking gifts for the procurement of bank loans, making false entries in a bank's books and misapplication of bank funds.

White is charged in one indictment with receiving fees or gifts for procuring loans. Robert E. Gresham, 34, Oakland, is named in the same indictment and charged with conspiracy to have a bank employe take side payments for loans he procured.

A second indictment charged White with conspiracy to misapply bank funds and making false entries in a bank's books. Also charged in this indictment is Carl Kennard, 37, Oakland.

White is identified in the indictments as the head of the consumer loan department of the East Oakland branch of the Anglo California Bank.

* * *

SAN FRANCISCO (AP)—A Hamilton Field air force unit today began a search for James W. Marks of Woodland, whose private plane was believed to have crashed in the Sierra yesterday. Marks, flying alone, was en route from Elko, Nev., to Sacramento.

* * *

SANTA CRUZ (AP)—Kenneth Ray Johnstone, 19, Tacoma, a Stanford University student, died last night, apparently of injuries from a diving accident. His head struck the ocean floor when he attempted to dive through the surf Saturday at Del Mar Beach. Dr. George Houck of the Stanford health service said death may have been caused by a sudden hemorrhage or a broken blood vessel.

* * *

SAN JOSE (AP)—Frank Razzatto, 37, manager of the Willow Glen branch of the Bank of America, dropped dead in his home near Campbell last night.

* * *

SAN FRANCISCO (AP)—Paul R. Mills and his family say the view of the Pacific Ocean from their hilltop is worth $10,000—only they can't see it. Mills charged in a suit against Fred M. Davis that an ancient cypress tree in front of his property deprives the family of the pleasure, comfort and enjoyment of an unobstructed view of the ocean from their living room.

He asked $10,000 damages and removal of the cypress.

How's That Again? By Dave Cox

"This time you'd better use ether!"

Jain Claims Improvements Do Little to Boost Costs

City Engineer Glenn Jain today estimated it would cost approximately $50 more per 50-foot lot to install first class improvements as the Redwood City government requests.

Recently subdividers and contractors have had Jain and the city government under fire, claiming that the city is demanding such expensive improvements that they can not afford to construct homes in this city.

Pointing out that $50 would be a small part of the approximately $10,000 it costs to buy homes these days, Jain gave these figures to support his estimate:

He said that, in general, subdividers want to construct streets four feet narrower than the city wants. Making a street four feet wider would cost each 50-foot lot in a subdivision $17 since streets cost 17 cents per square foot and it would take 100 more square feet per lot if streets were made four feet wider.

Making sidewalks six inches wider, as the city seeks, would cost each 50 foot lot $6. The city has sought five-foot sidewalks while some subdividers have sought four and a half foot sidewalks.

Some subdividers have asked that the city approve lower standards for street paving. They seek to install three-quarter-inch armor coating on streets instead of the two-inch asphaltic concrete the city seeks. The difference between the two would amount to $23.25 per 50 foot lot, Jain said.

Those three differences would total $46.25, but Jain added that the city in the past has sought to have cast iron water mains installed rather than the transite pipe subdividers favor.

Cast iron pipe, he said, would cost approximately 10 cents more per foot than transite. If a 50 foot lot, used 100 feet of pipe, that would raise the difference an additional $10.

Lacey Won't Talk About Burglaries

FRESNO (AP) — Acting Undersheriff Harold Emmick reported authorities are having no luck in questioning "bed spread burglary" suspects Henry E. Lacey and Fred Ebell.

"So far as getting information from them is concerned, we might as well be talking to the Sphinx," Emmick said.

Lacey — known as "Crowbar Carl" has been named as leader of the ring in statements by suspects who have admitted their part in the gang's activities. Ebell was brought here from Oakland by deputies last week.

Meanwhile, the first contingent of Fresno County burglary victims left for Oakland today to try to identify loot seized in Bay Area raids.

Hoover Group Sets Rec Plans

The first meeting of the Hoover School Dist. recreation building committee was held at L. A. Henderson's residence this week and plans were outlined for the acquiring of necessary materials for the building.

The redrock will be delivered to the site by Saturday. When it is properly spread, the wire mesh and reinforcing steel rods can be put in place; then the slab can be poured, Chmn. Joseph Bughi reported.

The following men were present: Bughi, Wesley Rose, C. M. York, Lynn Walters, L. E. Lintt, Ben Nesvold, and H. C. Dawson.
